Sheep-Receipts light; shipments small. The marketing of sheep and lambs this week has been of smaller volume, but apparently ample to meet the requirements of About 700 less than last week were received, and there is an increase of 2.300 compared with the same week a year ago and nearly 2,500 compared with the corsponding week two years ago. Thus far his year the receipts are nearly 43,900 larger than the same period last year. From the beginning of the week the reports from outside markets have not been everable to this market, but, notwithanding that, the demand here continued teady and prices were for the most part atisfactory to salesmen and owners. The market at the low time was possibly 10@15c wer than the high time, but at that prices were apparently higher than equal kinds were selling in the East. As usual, shippers were the principal buyers, but the de mand from local butchers was of more than ordinary importance and the competition was strong enough to cause rather an active trade every day. During the week lambs sold as high as \$4.75, but \$4.50 was practically the top, and a few sheep sold as high as \$3.50, with \$3.25 practically the top The receipts to-day were small and the demand was equal to the supply. ## REVIEW OF WALL STREET

BANKERS' DISCRIMINATION AGAINST INDUSTRIAL COLLATERAL.

Statement of the Steel Corporation-Money Outlook.

NEW YORK, Oct. 5.-The holiday in

London to-day accentuated the duliness

here and tended to relax the selling pressure, as London has been a constant seller in this market of late. The fact that there is no loan market at the Stock Exchange on Saturday also tended to relax the pressure upon the market. Perception is growing of the fact that the question of the effect of the interior demand for money on the stock market has passed the stage of argument and has resolved itself into a question of how much further stock market liquidation may have to extend. While there has been no stringency of money during the week this is due to the fact that in reducing their outstanding loans bankers have been discriminating against industrial collateral rather than making up the ruling rates for call loans. Owing to the continued firmness of sterling exchange, in spite of a larger supply of cotton bills this week, relief by gold imports does not appear imminent. Demand continues from bankers short of exchange, and experts in that market declare that a large short interest remains to be covered during November. It is said that some fresh sterling loans have been negotiated statement revealed that other forces are still at work in the credit market which offset the stock market liquidation. This and the renewed pressure against Amalgamated Copper depressed the whole market. There has been some irregularity in the stock market from time to time during the week and dealings have been on a small scale. The course of prices in the main has been downward and the weakness increased during the latter part of the week. The support of the market at the weak spots which was a feature during the crisis fol-Common to medium lambs ....... 3.00@4.00 lowing the assassination of President Mc-Good to choice yearlings...... 3.00@3.50 | Kinley, and which was attributed to the joint efforts of the great banking and finan-Bucks, per 100 lbs...... 2.00@2.25 | spicuously lacking. A feature of many of the railroad reports coming to hand, both for transcontinental and the trunk lines, is the fact that increases in net earnings are achieved on a somewhat lessened volume of actual tonnage moved. This is a practithe maintenance of freight rates and reflects the progress made in the community of interest as a factor in suppressing the rate-cutting, which has made such inroads upon railroad earnings in times past. On the other hand, the reduction in the freight movement is not an entirely reassuring fact. In part, this condition is due to the Common to medium heifers...... 3.50@ 4.00 is moved and which is a natural consequence of the prosperous conditions of the country. ## Invocation.

God of our youth! in whom we trust, Protector of our heedless day, Behold Thy children in the dust. Hearken, O Lord, Thy children pray: If now in manhood's path we stand, Give wisdom to Thy Promised Land.

God of our youth! what youth has done With Thy first hundred years, remains-A race not lost, a race not won. A banner not all clean of stains. Yet, Lord, what mortal youth is free From deeds that pardon need of Thee? God of our youth! if youth is o'er,

Thou givest, and dost take away; Father, our million hearts are sore, And beat as one in this black day: Take back cur youth, but give with age Wisdom instead, for heritage. -Owen Wister, in Collier's Weekly.

## ADVANCE IN ALL GRAINS

SATURDAY'S DULLNESS WAS A BULL FACTOR ON THE MARKET. The New York Financier will to-day publish the following table, showing totals,

> Provisions Did Not Follow the Ad vance of Wheat, Corn and Oats

and Closed Somewhat Lower.

CHICAGO, Oct. 5 .- The usual Saturday duliness was a bull factor to-day on the Board of Trade in spite of general bearish conditions, and December wheat closed %@ 1/2c higher, December corn 1/4@1/4c up and December oats a shade advanced. Provisions closed 5c to 121/2c lower.

Practically the only bull argument for wheat at the opening was a better tone in the cables. Receipts were still large, the weather perfect and there was no large cash demand. December, however, opened 1/4c to 1/4c higher, at 68% c to 68% c and on some fair local buying began to throw off the bear influence that has pressed it for the last week. May wheat had a fair trade, and following this and a report of increased buying for export December advanced and closed firm and %@4c up, at 69@694c. Receipts were ninety-nine cars, none of contract grade. Minneapolis and Duluth reported 848 cars, making a total for the three points of 947 cars, against last week's 1,044 and 780 a year ago. Primary receipts were 1,175,000 bushels, compared with last year's 797,000 bushels. Seaboard clearances in per bri. wheat and flour equaled 240,000 bushels. Australian shipments this week were 384,000 bushels, against 76,000 bushels last week.

Corn had a firmer undertone, helped largely by better cables and a desire to cover short accounts over Sunday. General conditions were still bearish, especially the fair weather, but in sympathy with wheat December, which opened 1/8c to 1/4c higher, advanced to 56%c and closed steady and 140% c up, at 56% @56% c. Receipts were 283

Oats had a dull, narrow market, with scalpers handling most of the business.
